

SCHOOL ACTIVITIES DURING INCLEMENT WEATHER

If school is cancelled for the safety of the students because of inclement weather, i.e., hazardous road conditions, then all practices, scheduled contests, and any other school activity shall also be cancelled. If the school cancellation extends beyond one day, the building principal shall have the discretion to decide if practices, scheduled contests, and other activities will be allowed provided that no student is required to participate in such activities. Furthermore, there will be no penalty for any student who does not participate on a day school is cancelled.

Note: If the school day is cancelled based on forecasted conditions and the forecast does not materialize, the building principal may evaluate the road conditions and determine if it is safe to allow a planned practice or event even though the school day was cancelled.

In addition to the above, if school is cancelled for a Friday, then activities scheduled for Saturday may be conducted at the discretion of the building principal.

If school is dismissed early for the safety of the students because of inclement weather, i.e., hazardous road conditions, then all school activities are also cancelled.

If school has a two hour delayed opening because of inclement weather, practices cannot be held prior to 9:00 a.m. on the day of the delayed opening. Furthermore, students cannot be required to attend or penalized for not attending.

Students may participate in activities at other locations if they are already present when the inclement weather hits. Furthermore, if an activity is planned by other organizations i.e., an IHSA tournament, under no control of our school corporation, our students' participation will be reviewed by the building principal to determine if attendance and participation is acceptable.
