Rich Schelsky – Athletic Director

Dear WOLVES Supporter,

What a great, yet very challenging year we just completed. Parke Heritage Athletics saw many successes on the fields, courts, and courses while dealing with one of the most unique school years ever. Dealing with COVID and the pandemic was definitely a negative over the last 16 months. Having said that, there was a big positive that came out of the pandemic that hopefully you or your family were able to take advantage of: livestreaming of some of our athletic events. There are many positives concerning livestreaming of events, however the one new hurdle to climb is the cost to continue on. This is a new added cost to the athletic department that nobody saw coming 2-3 years ago. However, the many positives of livestreaming far outweigh the negatives and I want to continue to build up our ability to livestream our HS and MS athletic events so everyone can be a part of Wolf Nation!

With your help, we can continue to not only give our student-athletes “the best” high school experience possible, but we can continue and hopefully even increase our ability to livestream home HS and MS athletic events going forward. My goal is to continue to make livestreaming available for our fans at no cost. This will definitely be a great year to have your business involved with our programs!

The following program sponsorship package will provide you quality advertising for your business while helping the young people of our community in many ways. This means that your company’s advertisement will be viewed by 1000’s of attendees at our PH athletic events! Thank you for your support of Parke Heritage High School Athletics and the children of our community.

Please fill out and return the form included on the back of this document to the return address provided.

Sincerely,

Rich Schelsky

Athletic Director
